Marty- I just read Bradner's column on the LNG deal. It's encouraging to read that he "gets it"... that the deal you put together is outstanding, and I'd hope his confidence in that deal translates into a more positive light from him shed on AGIA's abilities.

Thank you again for the outstanding moves you made with the LNG exports.

Oh my goodness Tom. The attacks keep coming, eh?! It's got to mean we're doing something right.

You are such a blessing to this state, our resources, and to me and the administration. I figure when you and Marty decide it's time to exit the rat race, then I'm coming with you.

I love the team you two have put together and look forward to adding good additions to it, like the Energy Coordinator. My only frustration is with the yahoos who try to thwart your progress, and with the naysayers who'll be proven wrong in the near future! Thanks for your message!

Second try: if you received something already I was just finishing the first email to you and my cell phone screen went blank. So I will try again.

My response was to an email from Kay Cashman.

I let her know that I was very proud to work for/with Governor Palin. It is a great team with great leadership and the goal remains the same "doing the very best we can for Alaskans". I am not planning on resigning, to the contrary I am very encouraged and optimistic about the progress that is being made. I liked the Governor before her election but you really don't know how a person will act in pressure situations making tough decisions that have to be right until you are involved. The Governor is doing a great job!!!

I suggested to Kay that some people start rumors to just see how far they go, some are malicious and want to hurt the Governor's and my professional relationship. They will be disappointed; just makes a relationship stronger.

Kay is going to do an article where she mentions this. Said she would sent me a draft to read first. God bless you day. Tom

Hi Tom,

There is a rumor circulating in the oil patch that you are upset with Gov. Palin about the gas line and ACES, and that as a result you might resign.

I'd like to ask you about that.

Best number is my cell 229-7057. I am working all weekend, plus 12 hour days this week, starting at 6 a.m. The only day I am off is Tuesday afternoon -- 1:30 p.m. through 8 p.m. Granddaughter time.

Hope all is well,

Kay

Does it make sense to make that extra leg from DC to NY next week? If not, I'll head back from DC after the NGA. Thanks

Although we didn't yet set an interview time, NY Times Magazine still interested in developing a story, even if it doesn't happen on this trip.

Their process is similar to 60 Minutes - visit then consider moving forward. It wouldn't be a single interview and may take a little time to develop.

You can't get anymore awesome, I read your Alaska magazine article! When we got home from anc last night I read aloud to the aunt and uncle "the irony w andrew is, I am the same person w the same positions I had when he wanted to work w me in the administration...there is certainly bitterness now, but I hope for his sake that he can find something to be happy about." Goes w/out saying, you got a standing ovation in this house!

Went and saw kris earlier in the day. She's looking good-and rested. Was great to visit w her. Read that todd rode 400 miles w a broken arm-just amazing! Tell 'em we are all so proud of him.

Incorporated into a draft speech what newt said: good conservatives must declare their independence from the r party and start looking introspectively or R's will continue to fail. Touching base w frank today to incorporate/edit the draft we have. Man, you really are the PERFECT person to deliver such a msg!
